

TIME SAVINGS BENEFITS SEEN
WITH THE FLUENT SYSTEM

84%

of OB/GYNs agree that a fluid management system that is **fast and easy** for anyone to set up **would deliver meaningful OR time savings.**¹

90%

of nurses who are new to fluid management systems were able to set up the **Fluent system** in

LESS THAN 1 MINUTE 
on average **after a single training session.**²

OB/GYNs reported **average fluid management set-up time** is approximately:

7 MINUTES¹

5x
FASTER

For nurses without prior fluid management experience, who successfully set up the Fluent and Aquilex systems on their first attempt*, the average set-up time **was 5X FASTER with the Fluent system** versus the Aquilex system.²

*18/20 for the Fluent system and 5/20 for the Aquilex system
